# RAILROAD NEWS FROM ALL POINTS.

President O. D. Ashley Submits Annual Report of the Wabash to Stockholders.

### SOME HEAVY EXPENDITURES.

Still Pursuing Policy Inaugurated Several Years Ago-Monon Dividend-New Electric Line-C., P. & St. L. Receivers Report.

President O. D. Ashley of the Wabash has just submitted the annual report of the company for the fiscal year ending June 30, 1900. It shows the affairs of the company to have been excellently conducted and its present condition prosperous. A dividend of per cent was paid during the year on the debenture "A" bonds, and a large amount expended in improving the physical condition of the property. The policy of increasing betterments, inaugurated several years ago, has been successfully pursued. The following extracts are taken from the re-

Total receipts \$16,710,694.14

Deduct operating expenses \$11,947,447.43

Deduct taxes 567,227.22

Deduct balance joint track rentals and miscellaneous expenses 767,746.67

Deduct additions to property and other charges \$292,207.70-13,574,699.08

Reference to Vice President Ramsey's report will develop the striking fact that during the pressure of traffic in the past fiscal year a daily shortage of 1500 cars has been a common occurrence. At competing points the company which can supply these cars will necessarily secure the traffic, and it has, therefore, resolved itself into a simple question of providing for business which the constantly developing resources of the country offer, and which belongs to our system. Failure to do this would be inexcusable, unless circumstances rendered it impossible to furnish the means of payment.

"Attention is directed to the interesting table of the auditor, giving the mileage statistics of the company for twenty years. The comparison from 1889 to 1900 is made substantially upon the same system. The comparison from 1889 to 1900 is made at the same time the rate per ton per mile has decreased from 0.633 cents to 0.535 cents.

In other words, the road has earned more net per mile at about 5½ mills per ton per mile in 1900 than in 1894 at about 64 mills. lvery. Reference to Vice President Ramsey's re-In other words, the road has earned more net per mile at about 5½ mills per ton per mile in 1894 at about 6½ mills per ton per mile. The passenger statistics show a similar improvement, and the net earnings per mile (31,920.74) are the largest since 1889, the year of reorganization. A careful study of these tables will show that notwithstanding the discouraging features of railway traffic, incidental to constantly declining rates and more aggressive competition, the Wabash Company has not only held its own, but is fairly gaining in its efforts to solve the transportation problem.

lem.
"The financial condition of the company is "The financial condition of the company is substantially the same as at the close of the last fiscal year, except so far as the engagements for new rolling stock have added, or will add, to the obligations of that character. There is no floating debt, as represented by borrowed money."

Vice President and General Manager vice President and General Manager will and overall purply Vice President and General Manager Ramsey makes a very full and exceedingly interesting report, showing the traffic and operation of the company in detail:

to betterments, the sum of \$93.705, leaves \$288,513 as surplus. They report that the unfinished business has been amicably arranged with the new management of the road so that they only await the pleasure of the court in asking for their discharge.

Conference Between Promoters and Business Men of Pana, III. REPUBLIC SPECIAL. Pana, Ill., Aug. 28.-A conference held this evening between the promoters of the proposed Hervey City and St. Louis Electric Railway and the Business Men's As-

sociation resulted in the appointing of a committee of citizens to investigate the matter, secure the right-of-way through the township and raise the necessary the township and raise the necessary bonus.

It is proposed to build a direct air line the proposed to build a direct air line It is proposed to build a direct air line from Hervey City, eighteen miles northeast of Pana, to St. Louis. It is the intention of the promoters to make it a freight route at first, the route as surveyed passing through the best farming country in Illinois. It is also proposed to handle passenger trains, and the road will be so constructed as to admit of ordinary railway cars being operated thereon.

#### NO RENEWAL OF LEASE.

Notice Given Great Northern by the Union Terminal Company. Sloux City, Ia., Aug. 28 .- The announce ment has been made that the Union Terminal Railway Company, which owns the \$2,000,000 terminals here, used by the Great Northern and the Illinois Central railways as union terminals, has notified the Great Northern that the present leases, which will expire with this month, will not be renewed.

It is asserted that the terminal company expects to do business with the Omaha Northern, a new railway, with the object of preventing an extension of the Great Northern lines to Omaha from here and thus depriving the city of the terminus of the line and the terminal company of a probable tenant at the company's own fig-

 An Atmore Memento.

An Atmore Memento.

Just a few days before his death, Colonel C. P. Atmore, general passenger agent of the Louisville and Nashville, gave an order for a limited number of match boxes, which he intended to give to ticket agents of friendly lines. Assistant General Passenger Agent J. A. Boyd is now carrying out Colonel Atmore's wishes. The little souvenir is unique in design and made of block tin, partly nickel plated and partly enameled. On one side is an artistic miniature representing "Love's Secret," while the other contains the red trade mark of the L. & N. These boxes will be treasured as rich little mementoes of the dead railroad official.

the present season.

Last week the Western roads voted down a proposition to use home visitors' rates tendered them by their Eastern connections as basing rates. The lowa Central has given notice that it would take independent action in the matter and run home-seekers' excursions from points on its line at a rate of one fare for the round trip.

Traffic Statistics.

The freight traffic statistics again show a large increase, 236,051,224 (14.16 per cent) in "tons revenue freight carried one mile," at an average rate of 0.5579 cents per mile, an increase of 0.0052 cents (0.94 per cent), at a cost per ton mile of 0.4250 cents, an increase of 0.0038 cents (0.9 per cent), leaving a net profit of 0.1329 cents as compared with 0.1315 cents last year, an increase of 0.0014 cents.

cents.

The average revenue per freight train mile was \$1.5005, expense per mile, \$1,1431, and net earnings, \$0.3574, as against \$1.2973, \$9.9887 and \$0.3086 respectively, last year.

The total freight train mileage was 7,-075,183, a decrease of 25,166, or about 3.67 per cent. The total freight train mileage was 7,-075,158, a decrease of 26,166, or about 3,67 per cent.

Passengers carried one mile increased 23,-225,125 (11.04 per cent), and in revenue 3473,-559,09 (12.09 per cent), 3145,832,02 of this increase was on the Buffalo division, leaving \$333,718.07 on the Wabash proper. The rate per passenger per mile was 1,913 cents, an increase of .016 cents, and expenses per passenger mile 1,650 cents, an increase of .040 cents, leaving 0,253 cents per mile net, as against 0,237 last year.

Train earnings per mile were 84.03 cents, a gain of 4.61 cents; expenses, 58.09 cents per train mile, an increase of 4.03 cents, and net earnings per train mile 25.94 cents, against 25.35 cents in 1899.

The "passengers carried one mile" increased 11.04 per cent, while the cost of passenger train service increased 12.89 per cent.

Heavy Expenditures. Full and complete reference is given by Mr. Ramsey to the large expenditures made od & during the year for improvements and additions to the property, all of which were charged to operating expenses. Expenditures of this kind amounted to more than \$480,000. Large amounts were also expended in repairs to locomotives and cars, and in procuring additional equipment. He then says:

m repairs to formatives and cars, and in procuring additional equipment. He then says:

"As shown by the foregoing statistics, there was no let-up in the policy of improvement which has been in force since the reorganization in 1889. While large sums have been and are being expended annually in this direction, it is the aim of the management to make these expenditures in such directions as will secure the best and quickest results in increased safety of operation; and that such results have been secured, at least, to a moderate degree, is shown by the large increase in both freight and passenger traffic, increases in car and train load, and decrease in cost of handling traffic on the ton mile basis. The average earnings per ton mile for the past year were less than the cost per ton mile for the year ending June 30, 1895, the cost per ton mile for 1800 being 25 per cent less than for 1835."
